

Steven Z. Zhang

Eager. Sociable. Diligent.

I am a sixteen-year-old student at the University of Toronto Schools who is passionate about simplifying life through software, mechanical keyboards, and being efficient to the brink of laziness. I enjoy embracing new opportunities by exploring emerging fields of interest.

EXPERIENCE

Livelihood Project

Digital Technology Lead (2017.7 - 8)

Livelihood Project helps disadvantaged groups facing barriers to sustainable and resilient employment develop future skills to move away from jobs low-skilled jobs most likely to be affected by automation. I created a modern and responsive website for the project, storyboard, film, and edit the promotional video, as well as fix a few computers and speakers here

MoneyScents

Co-Founder and Chief Technology Officer (2017.1 - Present)

MoneyScents is the revolutionary service that gamifies financial literacy education for teens. MoneyScents fills the void in the educational curriculum by offering finance-related video lessons, articles, and quizzes. MoneyScents is a finalist at the SAGE Canada entrepreneur competition.

Toronto Hacker Club

Logistics and Event Coordinator (2017.5 - Present)

No, we won't hack into your computer. The Toronto Hacker Club is a student-run organization that aims to promote technology education throughout the Greater Toronto Area. I work in logistics, organizing hackathons and other events to ensure everything runs smoothly.

EDUCATION

University of Toronto Schools

Ontario Enriched High School Diploma (2016 - 2019)

The University of Toronto Schools (UTS) is the top co-ed secondary school in Canada. Students are admitted in a competitive two-stage process, where they must score in the top percentiles in the SAT. UTS is the home of two Nobel Prize Laureates. Students at UTS consistently score highly in academic competitions.
